RUN FOR TY

5K Run/Walk

September 24th

Would you partner with us to help support a local family? Ty Maxey was 16 months old when he was diagnosed with Type 1 Diabetes. With Type 1 Diabetes, his body can't produce insulin anymore. Therefore he can't convert sugar and starches from the food he eats into energy needed to live. Normally a person can feel the warning signals of low blood sugar. For example they'll start sweating, shaking, feeling nauseous and confused. However, Ty has low blood sugar so often that he is now becoming more immune to these symptoms and thus does not know when his blood sugar is dropping or is dangerously low. This can lead to seizures, brain damage and even death. Recently Ty's family was able to adopt a diabetic alert dog named Eli. Eli spent many months training to identify rapid changes in Ty's blood sugar levels through chemical changes in the body that are expressed through a person's breath and skin, and include unique chemical elements that Eli can smell. Now that the Maxey family have Eli, there are still many costs to maintaining his effectiveness in protecting Ty's life. Help us show this family how much we as a community support and care about them. Help us make this event a huge success by donating what you can! All proceeds from the race will go to the Maxey family.

Name of Sponsor: _____

Address: _____

City: _____ State: _____ Zip Code: _____

Phone: _____ Email: _____

How do you want your name to appear: _____

Sponsorship Opportunities:

_____ Gold Level - \$75 and up

_____ Silver Level - \$50 donation

_____ Bronze Level - \$ 25 donation
